

Marin Science Seminar Presents

# The Coming Dementia Epidemic

## Is Alzheimer's Preventable?

with Deborah Barnes, PhD of UCSF

**A one-hour multimedia presentation for Marin High School Students and Teens in Marin**

**Wednesday, April 20<sup>th</sup>, 2016**

7:30 – 8:30 pm

Terra Linda High School, Room 207  
320 Albion Way, San Rafael, CA 94903

Neuropsychiatric disorders such as dementia and depression are common and debilitating in older adults. Dr. Barnes's research seeks to identify factors that may protect against such disorders by conducting both longitudinal, observational studies and randomized, controlled trials. Dr. Barnes is studying ways to minimize symptoms in those who develop cognitive impairment and dementia. Join us and learn!

*Dr. Deborah Barnes is Associate Professor of Psychiatry and Epidemiology & Biostatistics at UCSF. She is also a Staff Researcher in the Mental Health Service of the San Francisco Veteran's Medical Center. Her PhD was completed at UC Berkeley.*

**UCSF** University of California, San Francisco
