

Marin Science Seminar Presents

Bioanalyze This:
Adventures in Biotech & Drug Development
with Erik Foehr Ph.D.

**A one-hour multimedia presentation for Marin
High School Students and Teens in Marin**

Wednesday, October 10th, 2012

7:30 – 8:30 pm

Terra Linda High School, Room 207
320 Albion Way, San Rafael, CA 94903

Dr. Foehr will discuss the area of bioanalysis- what it is and how it's used. Examples from Dr. Foehr's published works will be shared, along with his experiences working in the fields of bioanalysis, immunogenicity risk assessment and drug development. He will explain techniques used to measure "stuff" at low levels in biological materials (blood, urine etc) with references to the popular television show, CSI.

Dr. Foehr is an expert in the areas of bioanalysis, immunogenicity risk assessment and drug development. He has directed labs at Bay Bioanalytical Laboratory and BioMarin Pharmaceuticals. Dr. Foehr was a Senior Scientist at the cancer diagnostic start-up, Diamics, and Senior Scientist at AGY Therapeutics, a proteomics company with a neuroscience focus. Erik Foehr received his PhD at UC Irvine. He has published in the areas of bioanalysis, immunology, cancer, and neuroscience.
