

Marin Science Seminar Presents

Botulinum Toxin

Beauty and the Beast

with Erik Foehr Ph.D.

Illustration by Anne Anderson, from Wikipedia France

A one-hour multimedia presentation for Teens and Community in Marin

Wednesday, September 30th, 2015

7:30 – 8:30 pm

Terra Linda High School, Room 207
320 Albion Way, San Rafael, CA 94903

Dr. Foehr will discuss the history, science and use of Botulinum Toxin. The world's most deadly toxin is simultaneously considered a weapon of mass destruction and is used widely for cosmetic purposes. We will learn about the molecular mechanism of this deadly toxin and how it is used in modern medicine to treat serious medical conditions (and make you look younger!).

Dr. Foehr is an expert in the areas of bioanalysis, immunogenicity risk assessment and drug development. He has published in the areas of bioanalysis, immunology, cancer, and neuroscience. Currently he is Vice President at Pacific Biolabs. Dr. Foehr received his PhD at UC Irvine.
