

The Marin Science Seminar is a series of extra-curricular, interactive science presentations held during the school year and consisting of programs in **all areas of science, engineering and mathematics**. Specialists bring a multimedia presentation and speak to high school students on a topic and there is a discussion period afterwards. Marin teens and their parents are welcome to attend. Visit marinsscienceseminar.com

Dates: Six Wednesdays per semester, 7:30 – 8:30 pm (**exception**: 3/21 session on a Monday evening)

Location: Terra Linda High School Physiology Lab 207.

Spring 2011 Series

January – Biology and Zoology

26: "**Life in the Slow Lane** – Peristaltic Locomotion in Sea Cucumbers" with Diara Spain, PhD of Dominican University

February – Microbiology and Nanotechnology

9: "**X-Rays Don't Really Give Your Superpowers** – How Cells Fix DNA Break " with David Toczyski, PhD of UCSF

16: "**Invention in Medicine: How Medical Devices Get Invented and Go to Market**" with Art Wallace, MD PhD of UCSF (Nanocrystals rescheduled to Fall 2011)

March – Zoology, Environmental Science, Physiology & Astronomy

9: "**Challenges of an Aquatic Biologist**" with Pamela Schaller, Sr. Biologist, CA Academy of Sciences

21: (**Monday!**) "**Space Physiology: Everything You Ever Wanted to Know about Living in Space**" with Liz Warren, Ph.D. of NASA Johnson Space Center

April – Software Engineering & Astronomy

20: "**This is Mission Control**" with Jay Trimble of NASA-Ames
