

Marin Science Seminar Presents

Memory, Money, & Heat Sensing Underwear

Interdisciplinarity in Neuroscience

with Irina Rabkina of Scripps College

A one-hour multimedia presentation for Marin
High School Students and Teens in Marin

Image from "The I.T. Crowd"

Wednesday, January 9th, 2013

7:30 – 8:30 pm

Terra Linda High School, Room 207
320 Albion Way, San Rafael, CA 94903

"In just two years as a neuroscience major, I have been introduced to a variety of tools used and topics studied under the umbrella of neuroscientific research. In this talk, I will focus on my work at the Center for Neuroeconomics Studies of the Claremont Graduate University and hopefully answer the question on everybody's mind: just what do underwear have to do with anything?"

Irina is a TLHS graduate ('10) who is currently majoring in Neuroscience at Scripps College. She is involved in both the Social Cognition & Decision Lab at Scripps, and the Center for Neuroeconomics Studies at Claremont Graduate University. Irina's interest in neuroscience sprang from a talk she heard through Marin Science Seminar, so she is excited to return to the source and share her experience.
