

What do scientists really do? The Marin Science Seminar brings working scientists: engineers, physicians, computer programmers, medical professionals, and research scientists, to speak to local teens. Visit www.marinscienceseminar.com to learn more.

Dates: Six Wednesdays per semester, 7:30 – 8:30 pm

Location: Terra Linda High School, 320 Nova Albion, San Rafael; Physiology Lab 207.

Spring 2017 Series

January 11: "The Physics of the Perfect Paper Airplane" with John Collins, Guinness Book World Record holder for paper aircraft distance

February 8: "Sea Lions Have No Thumbs. So How are they Such Good Scientists?" with Claire Smeone DVM of the Marine Mammal Center, Sausalito

"Fresh Air February"

February 15: "Tiny but DANGEROUS!: Particulate Matter 2.5 micros or less and Its Impacts" with Eric Stevenson of the Bay Area Air Quality Management District

March 22: "Code Blue! Even Robots get Medical and Dental? " A Medical and Dental Simulation Workshop with Rich Fidler, Eve Lofthus, and Shelley Miyasaki of UCSF and the VAMC SF

March 29: "Where are the Crabs Going? - Using Math to Predict the Future of Our Oceans" with Alma Yesenia Ceja of the Romberg Tiburon Center for Environmental Studies and SFSU

April 5: "DNA Sequencing and Cancer" with Bradley Stohr MD PhD of UCSF
