

## SCIENCE JOURNALISM & MULTIMEDIA INTERNSHIPS

Since 2008, the Marin Science Seminar (MSS) brings working scientists, engineers, medical professionals, and computer programmers to speak to high school students twelve times a year. Students learn what real scientists really do. MSS also provides information on local science events, student internships and manages several science and technology-related social networking sites.

### **Internship:**

Explore science, develop a portfolio, educate others. MSS interns attend and assist with 6 science seminars per semester during which they meet the speakers. Sessions take place on Wednesday evenings at Terra Linda High School in San Rafael, Room 207, during the school year. Interns arrive the evening of a session at 7 pm and assist with set-up, intake, and AV duties. They are free to leave once breakdown is completed after 8:30 pm. Writing interns interview speakers via email, blog and post about speakers and event topics. Videography interns record sessions and create teaser videos about event topics. Both act as content managers for MSS's social media outlets.

### **Details:**

- Internship types: Writing (Science Journalism/Blogging) and Videography. These can also be combined.
- Dates and Times: 6 Wednesday evenings September – November; 6 Wednesday evenings January – April; 7:00 – 8:45 pm. See current calendar for actual dates. <http://www.marinscienceseminar.com/>
- Location: Terra Linda HS, 320 Nova Albion, San Rafael, Room 207
- Application Requirements: Writing interns submit two original writing samples. Videography interns submit two original video samples. These do not have to deal with science. Must have regular access to a computer and the Internet via a web browser or tablet (not just mobile phone). All prospective interns are interviewed.

**Contact:** For more info, visit <http://www.marinscienceseminar.com/>. Contact Mrs. Wallace at [marinscienceseminar@gmail.com](mailto:marinscienceseminar@gmail.com) or leave a message at 415-860-2573 to schedule and interview and to arrange delivery of samples. These can be emailed or brought to the interview.
