

For Teens and Community – at Terra Linda High School

Marin Science Seminar (MSS)
Videography Intern Focus
Internship Application Information

* Applicant requirements: Prospective videography interns must submit at least two web-ready video samples (YouTube, Vimeo, web, email). They must have access to and basic proficiency in video editing software (iMovie, Windows Movie Maker, etc.). All prospective interns are interviewed. *See the main internship application flyer for general intern duties, information and time requirements.*

* Videography basic and time requirements: Create teaser videos and session recordings for MSS sessions. Teaser videos should be submitted no later than 24 hours before the session starts and no sooner than 2 weeks before the session. Session recordings should be posted to the MSS Vimeo account 2-3 weeks after each session. Teaser videos are posted to the MSS Vimeo account and cross-posted to MSS social media outlets. When sessions are closely spaced, you will be allotted extra time for posting.

* Teaser video detailed requirements: The teaser video must each include a title with the videographer's name, details on the upcoming event (name, presenter, date, time and location), and the MSS website url. *They should be approximately 1-2 minutes long (45 – 120 seconds).* Samples can be found here: <https://vimeo.com/marinscienceseminar>
The MSS blog can be found at <http://marinscienceseminar.blogspot.com/>

* Session recording video detailed requirements: The intern will videorecord science seminar sessions. We will provide recording equipment. The intern will be lent an SD card with the recording and an SD card reader to transfer the recording to a computer where it can be edited.

Instructions – Fill out the online application at <http://www.marinscienceseminar.com/interns.html> or email marinscienceseminar@gmail.com for more information or to apply via email. Interns will be notified within a week of their interview with a Marin Science Seminar coordinator.

Contact

For more information, visit the MSS website at <http://www.marinscienceseminar.com/>. Contact MSS coordinator Alfia Wallace at marinscienceseminar@gmail.com or 415-860-2573 for more information, to schedule an interview and to arrange delivery of video samples. These can be emailed to her or brought to the interview. Those seeking School to Career internship credit must contact their school's StC counselor.
